

# QUALITY MANAGEMENT SYSTEM

## QUALITY POLICY

Our vision is to be the place where creative minds engineer a sustainable future.

Our mission is to accelerate decommissioning.

At React, we don't just do the thing right, we recognise and do the right thing.

We empower our people. We lead with integrity. We solve with pragmatism.

We deliver positive outcomes for our customers, people, partners, community and industry.

**reactengineering**  
MIND OVER MATTER

To support achievement of the vision and mission, React maintains an approved Quality Management System, which is applicable to the provision of nuclear and mechanical engineering consultancy and project management services, which supports delivery of its services. The Board of Directors and the Executive Team of React Engineering Limited are committed to ensuring that the Quality Management System is based upon the principles of continual improvement.

React's Quality Policy outlines the primary objectives determined by the Executive Team which are reviewed ahead of each financial year. The key objectives are currently as follows:

- To provide our staff with a safe working environment, challenging work and potential for career development.
- To continually review our business and to identify improvements.
- To ensure that our staff and our subcontractors deliver our products in a manner that satisfies our customers' requirements (including all quality and security requirements).
- To enhance our profile and broaden our involvement beyond existing markets.
- To develop mutually beneficial relationships with partner organisations.
- To be in a position where we are routinely invoicing above target.
- To maintain an effective project management culture.
- To ensure the technical development of the team and the company.
- To ensure a consistent recruitment pipeline.
- To develop the company's business systems to support our growth ambitions.

It is the policy of the Board of Directors and Executive Team of React Engineering Limited that the quality system is fully communicated to, and implemented by, all employees and subcontractors.

Signed for and on behalf of React Engineering Limited,

**Phil Redfern, Managing Director**
